MINISTER OF ENERGY
OF THE REPUBLIC OF BULGARIA**

STATEMENT

of the Bulgarian Photovoltaic Association, UIC: 175801326

Subject: Draft Decree of the Council of Ministers laying down the conditions and procedure for the implementation of a program for providing aid through compensation for the temporary relief of electricity prices for energy-intensive consumers

**DEAR PRIME MINISTER,
DEAR MINISTER OF ENERGY,**

In connection with the Draft Decree of the Council of Ministers on the determination of the conditions and procedure for the implementation of a program for providing aid through compensation for temporary relief of electricity prices for energy-intensive consumers, published for public consultation on September 18, 2025, we would like to propose the following amendment:

In Article 18, paragraph 2, a new point 7 shall be added as follows:
“7. Guarantees of origin for energy from renewable sources.”

Motives: The proposed amendment will contribute to achieving the objectives set out in the Clean Industry Pact, which forms the basis of the discussed support scheme. By including guarantees of origin for renewable energy, the program will help unlock public and private investments aimed at improving access to affordable energy and strengthening the circular economy. This measure will create a predictable and secure investment environment, encouraging the accelerated development of energy from renewable sources, without distorting competition rules. The multiplying effect of this proposal will directly contribute to expanding and speeding up the production of clean renewable energy in a cost-effective manner and to significantly increasing the share of renewable energy in the production processes of target industries (in accordance with the provisions of Section IV of the Renewable Energy Sources Act).
